## SUMMARY

---

I am a results-driven professional with two years of experience in software development. During my career, I have contributed to the success of diverse projects, showcasing my ability to adapt to different industries and collaborate effectively with international clients.

In my first year, I worked with Is.Retail, a leading company specializing in warehouse management systems for clients, including Jeronimo Martins. During this time, I gained valuable insights into supply chain operations, honed my programming skills, and actively contributed to the development and enhancement of warehouse management solutions.

In my second year and continuing to the present, I have been part of a dynamic team working on a financing system project for Volkswagen's client in China. This experience has provided me with a deeper understanding of the automotive industry, international business practices, and the complexities of financial systems.

My career journey has strengthened my expertise in software development, project management, and cross-cultural collaboration. I am passionate about delivering innovative solutions that drive efficiency and success for clients. I look forward to leveraging my skills and experience to contribute to future projects and excel in the field of software development.

---

## Skills

---

### Technical Skills:

- **Programming Languages:** C# and PHP
- **Framework:** .NET Core 4.6
- **Database Management:** SQL Server 2022
- **Code version controller:** Git
- **Development Tools:** Visual Studio
- **Project Management:** Jira
- **Software Development:** Developing and implementing software functionalities
- **Database Querying:** Proficient in SQL for data retrieval and management
- **Soft Skills:**
- **Organized:** Demonstrated ability to effectively manage tasks, projects, and timelines using project management tools like Jira.
- **Methodical:** Approach tasks and problem-solving systematically to achieve efficient and consistent results.
- **Hard and Smart Worker:** Committed to putting in the effort required for success while working intelligently to optimize productivity.
- **Punctual:** Consistently meet deadlines and deliver work on time.
- **Ambitious:** Strive for continuous improvement and career advancement, setting and pursuing challenging goals.
- **Communication:** Strong communication skills, both written and verbal, facilitating effective collaboration within cross-functional teams.

---

## Professional Experience

---

### Software Developer – VTXRM 12/2022 – Present

- Provided technical consulting support for a project delivered to an international client.
- **Tech:**
  - **Backend:** C#, .NET Core, SQL Server
    - Async/Await, Generics, Lambda expressions, LINQ, Collections, Queries, SP's, views and indexes
  - **Version control:** Git
  - **Tools:** Visual Studio, Jira and SQL Server Management Studio.
  - **Unit Testing:** NUnit, NSubstitute
  - **Code review:** Pull Requests, branching
- Utilize Jira as the primary project management tool to efficiently track, prioritize, and manage client requests and defect reports, ensuring timely resolution and client satisfaction.
- Employ Visual Studio as the integrated development environment (IDE) to design, develop, and maintain new software functionalities. This includes writing code in C# and managing code repositories, enabling seamless collaboration among team members.
- Work closely with internal stakeholders to handle and resolve code-related issues and internal tickets, using a combination of C# and SQL for effective troubleshooting and issue resolution.
- Collaborate within cross-functional teams to gather project requirements, conduct code reviews, and ensure the successful delivery of high-quality software solutions.
- Actively contribute to the enhancement of existing systems, leveraging a strong understanding of C# and SQL to optimize performance and functionality.
- Keep abreast of industry developments and best practices, continually enhancing technical skills to remain at the forefront of software development.

### Junior Software Developer – IS.Retail 01/2022 – 12/2022

- Junior Software Developer for supply chain management area.
- **Tech:**
  - **Frontend:** OpenUI5.
  - **Backend:** MySQL and PHP.
  - **Tests:** Katalon and Selenium
- Developed and maintained multiple user interfaces using OpenUI5, ensuring a seamless and userfriendly experience for both internal and external stakeholders.
- Utilized PHP to create various functionalities, enhancing the performance and usability of the software systems.
- Demonstrated proficiency in server administration by successfully installing and configuring Linux servers, optimizing server performance, and ensuring system security.
- Spearheaded the development of an automation testing system, leveraging Katalon and Selenium. This system streamlined the quality assurance process, resulting in a more efficient and reliable testing framework.
- Actively participated in code reviews and provided mentorship to junior team members, contributing to a knowledge-sharing culture within the organization.
- Kept up-to-date with industry trends and best practices, consistently seeking opportunities to enhance technical skills and stay at the forefront of technology.

---

## Education and certification

*With these courses, I developed a solid foundation in software engineering principles, mastered industry-standard best practices, and actively explored and implemented cutting-edge technologies within the software development field.*

### Polytechnic Institute of Setúbal – 10/2017-07/2022

- Degree in Computer Engineering - Specialization in Software Engineering

### Other certifications:

- I have earned several certificates related to software engineering and C# development, reflecting continued learning in these areas. The full list can be viewed at <https://bruno-marques98.github.io/brunomarques/certificates.html>

---

## Languages

Portuguese: Native proficiency (Speak and Write)

English: Fluent proficiency (Speak and Write)

---

## Hobbies and Interests

Reading: Enthusiastic reader with a passion for exploring a wide range of literary genres and topics.

Soccer: Enjoy playing soccer as a way to stay active and foster teamwork and camaraderie.

Beach: Relish spending time at the beach, taking in the sun, swimming, and enjoying the coastal environment.

Bicycling: An avid cyclist who finds joy in exploring new places and staying physically active through cycling.
